Figure 1

Figure 2

Revenue:

- The Year to Date (YTD) total revenue earned is R25.9 million for the period ending 29TH FEBRUARY 2024 excluding capital conditional grant income of R179.6 million. The YTD Budget is R 161.4million; which means expected collection has been achieved.
- As can be seen from the table above that transfers recognized-operational are high is due to the municipality receiving both trenches of equitable share for R172.5 million has been received by the municipality which has set off an INEP rollover application of R624 thousand which was not approved by National Treasury. Therefore, the municipality is awaiting the last trench of R49.9 million as publicized on DORA. Also increase is due to operational grants which conditions have been met as they have been realized as revenue for FMG, EPWP and INEP.

EXCHANGE REVENUE

Service Charges: Electricity

- Revenue for service charges- electricity is recognized on an invoice basis and the total amount billed is R41,9 million (current month – R4 million) which equates to an over billing by 2% when compared to the total budgeted of R41.2million.
- Variance is due to electricity demand by Umngeni Water as a result of plant that increased its water generating capacity to circumvent the Hezelmere Dam shortfalls which came as a result of the KZN

April 2022 floods which resulted in a serious destruction of the Bulk Water Infrastructure particularly in Ethekeeni and the Southern part of KwaDukuza.

- Management to consider the increase of the budget during the budget adjustment.

The actual cash collected is R4 million for the month ended FEBRUARY 2023.

### **Service Charges: Refuse**

- Revenue for service charges- refuse is recognized on an invoice basis and the total amount billed is R8.3million (current month – R272 thousand) which equates to an over billing by 12% when compared to the total R7.4million refuse revenue budgeted.
- The variance is caused by the New Identified properties by the Supplementary Valuation roll.
- The actual cash collected is R 272thousand for the quarter ended FEBRUARY 2024.

### **Sale of Goods and rendering services**

- Sale of Goods and services amounts to R471 thousand in comparison with the year-to-date budget of R8.6 million, thus indicating an over performance by R8.1 thousand or 95 percent, variance is due to the level of demand in the sale of goods and rendering services.

### **Interest earned from receivables.**

- Interest earned from receivables amounts to R446 thousand in comparison with the year-to-date budget of R612 thousand, thus indicating an under performance by R166 thousand or 27 percent, variance is based on the outstanding debt billed on refuse and electricity. Interest rate on outstanding debtors is 2% per annum.
- Challenges with the Billing department still persist and it causes delays to the reporting unit as credible information is of important for the assessment of the performance.

### **Interest from Current and Non-Current assets**

- Interest earned on external investments amounts to R18.7 million in comparison with the year-to-date budget of R15.7 million, thus indicating an over performance by R3 million or 19 percent, variance is based interest rate on the cash available from previous year cash backed reserves and additional grants received. Based on performance reported at mid-year, the municipality will increase budget during an adjustment budget to ensure realistic estimates and also to accommodate additional funds to be re invested so as to increase revenue sources of the municipality.
- Further to that the municipality has taken decision to redirect the interest generated from these investments towards service delivery which will also be considered during adjustment budget process.

### **Rental from fixed assets**

- Revenue from rental of fixed assets recognised amounts to R200 thousand in comparison with the year-to-date budget amount of R162 thousand thus indicating an over performance of R38thousand or 24 percent. Variance is due to level of demand in the usage of municipal facilities (Municipal sports fields, municipal halls) when comparing to the projections.

### **Operational Revenue**

- The majority of the Council own funded sources are budgeted under this category.

The year-to-date performance in Other Revenue amounts to R1.5 million more than anticipated YTD budget of R1.3 million, thus indicating an over- performance of R134 thousand or more that 10 percent, variance is mainly due to seasonal fluctuations and level of demand for these items e.g, tender fees, connection and disconnection fees.

Another contributing factor to this variance is due to revenue received from sale of land of R155 thousand and LG SETA Funding of R618 thousand. These line items were not budgeted for it will have to be considered during adjustment budget.

### **NON-EXCHANGE REVENUE**

**Property Rates**

- The municipality accounts for Property Rates on an invoice basis in line with GRAP requirements and the total amount billed is R41.5 million (current month – R1.8 million) which equates to an over billing by 5% when compared to the total R39.6 million pro-rata property rates revenue budgeted.
- The Annual Billing has been processed, which effect reflect an over Billing of 5%.

The actual cash collected being R 1.8 million for the month ended FEBRUARY 2024.

**Fines, Penalties and forfeits**

- Fines have underperformed by -70 percent or R568 thousand, with an actual amount of R239 thousand variance against year-to-date budget projections of R 807thousand. This is mainly due to the culture of non-payment and adverse economic conditions Revenue reported to date is on cash basis, as the municipality accounts for fines in terms of iGRAP 1 during year end.
- The traffic fines register is yet to be obtained from all law enforcement officers. The same will nee
- Furthermore, to that based on the audited AFS the budget allocated appears to be understated and it will be adjusted during an adjustment budget to ensure realistic budget estimates to be receipted using the accrual basis of accounting in order to recognise the income accordingly.

**Licences and permits.**

- Licences and permits have over performed by 31 percent or R 492thousand with an actual amount of R643 thousand as compared to budget of R492thousand, Revenue reported has been received from issuing licences and permits by traffic department and trading licences for business within the municipality.

**Transfers & subsidies**

- Transfers and subsidies recognised operational amounts to R 179.6million YTD Actual in comparison with the YTD budget of R161.4 million, thus indicating an over performance by R18.2 million or 11 percent, variance is mainly attributable to the municipality receiving the 2<sup>nd</sup> trench of the Equitable Share of R173 million and realisation of operational grants spent as conditions have been met for EPWP, FMG and Library Grant.
- INEP Rollover application of R624 thousand was not approved by National Treasury, this balance has been set off from the second trench of Equitable Share. Total amount transferred to date for Equitable Share is R172.5 million, However the INEP funds that were set off have been transferred from INEP Call account to replace the amount set off, which has resulted in total transfers of R173,1 million for Equitable Share with a remaining balance of R57.7 million.
- Transfers and subsidies capital amounts to R29.4 million in comparison with the YTD budget of R40.2 million, thus indicating an under performance by R10.8 million variance is mainly attributable by expenditure in MIG. *(Detailed report on MIG expenditure has been provided below)*
- INEP and Massification grant have been transacting in accordance with GRAP 109, however during preparation of Annual Financial Statement for 2022/23 an accounting guideline was issued by Treasury as how should a municipality budget and transact in relation to these grants. During adjustment budgeted these grants will be adjusted and budgeted in accordance with GRAP11 to comply with the new treatment.

**Interest earned from receivables.**

- In line with council adopted credit control policy, the municipality charges interest on arrear debtors.
- Interest earned from receivables amounts to R2.5million in comparison with the year-to-date budget of R1.9million, thus indicating an over performance by 559 thousand or 30 percent.

**Operating Expenditure from February 2024**

Figure 6

Total Operating Expenditure

Figure 7

Operating Expenditure:

- The total operational expenditure YTD Actual for the period ending 29th February 2024 amounted to R 249.4 million against the planned target of YTD budget is R 293.0 million. As at the end of FEBRUARY the operational expenditure budget has been under spent by -15% or -R43.6 million. Detailed expenditure analysis is below:

Employee Related Costs

- Employee related costs YTD expenditure for the period ending 29TH FEBRUARY 2024 amounted to R82.1 million while the YTD budget was R94.3 million with an underspending of R12.2million at -13per cent. Variance is due to positions that were prioritised in the budget which have not been filled. However, recruitment processes are underway to filling of these positions.
- Furthermore, to that it should be noted that employee bonuses are now being paid on their birth month.
- Another contributing factor to this variance is due to calculation of provision for leave and long service awards which are processed at year end upon receiving the actuarial calculation for Actuaries.

**Remuneration of Councilors**

- The expenditure on councilor allowances as of 29th FEBRUARY 2024 has a variance different of R598thousand compared to the budget amount. The target in this vote has been reached.
- Performance reported under Remuneration of Cllrs has considered the approval from COGTA in relation Cllrs Upper limits as per Gazette Notice No. 3807 dated 18 August 2023. Further to that backpack was considered when implementing this gazette

**Bulk Purchases**

- Bulk purchases relate to electricity purchases that the municipality purchases from Eskom for revenue generation stream, as the municipality has the license authority within ward 3. To date the expenditure on bulk purchases totals R32.1 million (current month – R3.8 million) when compared to the projected budget of R34.6million, variance is R2.5 million with an over expenditure of 7 percent. Variance is due to the level of demand for electricity purchases.

**Inventory Consumed**

- Inventory Consumed reflects an underperformance by 45 percent or R1.3 million from YTD budget of R3 million against the YTD Actual of R1.6 thousand, variance is due to the implementation of procurement plan. The municipality has reviewed its repairs and maintenance plan to ensure that the infrastructure of the municipality is regularly monitored for its aging.

**Debt Impairment**

- The provision for bad debt is reflecting an under performance by 25percent orR6.2 million from YTD budget of R24.9 million against the YTD actual of R18.9 million. Based on the complexity of analysis which brings about the said calculation, it was management's view that such calculation should take place biannually (Midyear and Year end). We believe that the said Midyear calculation will increase the expenditure value to be in line with the year-to-date budgeted amount.
- The assumption is that you exclude all debtors with credit balances when calculating the provision. Provision for Bad debt is therefore calculated using the collection rate of 65% for debt within 90 days and 20% for any debt older than 90 days for all categories except electricity. With Electricity the assumption is that 90% of the debt older than 90 days is still collectable.

**Depreciation and Asset Impairment**

- Depreciation and asset impairment are reflecting an under performance by -7percent or R1.8million against YTD actual of R21.9 million against the YTD budget of R23.7 million, variance is immaterial, and it will be addressed during the year end as planned assets would be procured.

**Interest**

- Finance charges reflect an under performance by 98 percent or R2.2 thousand against YTD actual of R33 thousand. Expenditure incurred is due to interest paid to as per Eskom Invoices for late payment which results in fruitless and wasteful expenditure. However, the municipality has been engaging eskom in relation to this interest being charged whereas payments are always done timeously.
- Another contributing factor to finance charges is the reclassification of retirement benefit obligation interest costs in accordance with GRAP 25, this calculation will be done during year end after assessment by Actuarial Report has been completed for the year. Based on performance for 2023/24 for finance charges of R2.6 million this item appears to be under stated and it will be adjusted during an adjustment budget to avoid Unauthorized Expenditure

**Contracted Services**

- Contracted services expenditure is reflecting an under expenditure by 30 percent or R17million from YTD budget of R56.5 million against the YTD actual of R39.6 million, variance is due to the implementation of procurement plan. This item included all the contracted and outsourced services by the municipality.

**Irrecoverable debts written off**

- Irrecoverable debt written off have underspent by 25 percent or R1.3 thousand from YTD budget of R5million against the YTD actual of R4million, variance is due to the fact that the municipality have not had any debt write offs in the current financial year, write offs are normal authorized by Council during the third and fourth quarter, we are however convinced that once the authorization is received from Council the said write offs will increase the expenditure value to be in line with the budgeted amount.

### **Operational Cost**

- Operational Cost has overspent by 6 percent or R2.2 million from YTD budget of R37.6 million against the YTD actual of R39.8 million, variance is due to activities that took place in the first quarter of the financial year and the implementation of cost cutting measures.
- Other expenditure - The majority of items are not a straight-line expenditure some are paid where it is needed e.g. printing and stationery, mayoral projects, external services etc. Certain expenditure items are based on a seasonal commitment.

### **Losses on Disposal of assets**

- Losses of 100% against the pro-rata budget of R 1million, this reflect that there are no losses in the month of reporting recognized.

### **Other Losses**

- Losses of R173 thousand reported as at mid-year is due to write off of Inventory items. This item was not budgeted for initially this will then be adjusted during an adjustment budget and consider actual reported in prior year audited AFS 2022/23.

Capital Expenditure from FEBRUARY 2023:

The capital expenditure budget is R55.8 million against actual Capital expenditure amounted of R93.2million resulting in an under performance of (40%) on capital expenditure. Variance in capital expenditure were due to different reason (detail report on the progress on all capital projects has been provided below).

The municipality has developed a strategy to monitor capital projects, if there are any gaps the strategy is regularly reviewed so as to ensure that planned projects are completed". Further to that below we have attached progress report on implementation of capital projects and highlighted challenges that the municipality has come across in relation to other projects.

The capital expenditure year to date can be graphically presented as follows:

Capital Expenditure reported as at February 2024

- Capital grants funded by the National Government for MIG actual is R29.8 million versus YTD Budget of R34.6 million as at FEBRUARY 2024. Variance of -R4.7 million or -14 per cent is due to expenditure incurred from MIG, and R8.1million incurred form the Disaster relief Grant. This grant expenditure performance is under the expected percentage as end of this term, a rollover application for it should be expected.
- Capital grants funded by Provincial Government actual is R160 thousand versus YTD Budget of R394 thousand as at FEBRUARY 2024 variance of 60% reflects an underspending of R235thousand in this grant. There are more goods planned to be procured.
- Capital grants funded Internally generated funds actual is R26 million versus YTD Budget of R58.2 million as at FEBRUARY 2024. Variance of -R32.4 million or -56 per cent is due to expenditure incurred further to that it should be noted that there are projects that are still in progress in relation to this funding.

2.2 Monthly Budget Statement – expenditure on Repairs and Maintenance

The total Consumer debtors outstanding as 29 February 2024 is **R 273.9 million**

- Debt book indicates 13% increase from to 1<sup>st</sup> July 2022 to 29TH FEBRUARY 2024, the debt book is very high.
- Debtors collection rate at February 2024 is 77.76%
- We are however maintaining and ensuring the collection of the current debt but our biggest challenge is the historic debt. We have since appointed three Debt Collectors to follow up on outstanding debtors, Debt collectors are operating Debt pack while telephoning Debtors, printing section 29 and Final demands, we will soon be moving to legal in order to further our collection measured on consumers that are resistant to pay nor respond to our Debt collectors.
- Our Debt collectors have embarked on an exercise where different households are being visited in order to assess the state affordability of each household, this exercise is aimed at assisting the Municipality to classify its debt book in terms of collectability or non-collectability of the debt, the program is ongoing.

- There is a challenge of high level of debt that calls for reassessments of the debtors, impairments.
- It is quite a challenge to collect satisfactory revenue from Sundumbili since we do not have any leverage to restrict in order to encourage regular payments from consumers thereon. I.e. Eskom is licensed to supply electricity.
- The high debt is mainly due to non-payment by Household in Sundumbili.
- Interventions have been made which are expected that they will change the current status, as the municipality is placing every effort in ensuring that we collect and recover the outstanding debt.
- We are currently undergoing the process of categorizing our book per various customers so that we know which ones to chase once our debt management system is up and running.
- We have also initiated a meter audit exercise, through Conlog, in order to ensure that we receive all the funds due for electricity supplied without any household tampering with our meter and steal electricity, the program is currently o
- Debt collection measures have been improved after the policy review by issuing summons with the intention to attach movable property. This initiative is however a slow process because of sheriff's involvement. They cannot cope with the number of summons to be served, upon attachment of movable properties for sale in execution, the sheriff returns with "nulla bona" which defeats the entire process. Property owners are not regular domiciles of properties indebted to council and have since left with no possible trace, legal proceedings cannot be extended further since courts are reluctant in granting intended judgement (section 66 declaring properties especially executable) as the said properties are primary residents to the latte's relatives or dependents.

**Auditor General's matter of emphasis**

- It should be noted that the issue of Material impairments to debtors is one of the factors that affected our audit opinion
- It was also noted that we are having a challenge in identifying and eliminating indigent cheaters
- The audit Further identified the billing discrepancies relating to interest charged for outstanding debt and property rates
- It should be noted if things were to carry on this way this institution is going to lose it credibility and this will subsequently affect it going concern and we will soon be regarded as a grant dependent Municipality
- We should also put an emphasis that this issue is not entirely dependent on the Revenue team but requires a collective effort of each and every member of the Mandeni family to play a meaningful role so as to ensure that we redeem ourselves from these challenges.
- We have formulated a plan of collection going forward and our plan has been highlighted in the AG's management latter
- The plan provided is more operational but we have highlighted that strategic interventions need to be put in place so as to uplift the standard of living of our communities, attract and retain investment.
- Open opportunities for more job creation so as to ensure that we are serving the community that can afford to pay for our services.
- We need to ensure that we deal with the low hanging fruits in as far as basic service delivery is concerned. Fix potholes, streetlights, maintain roads clean our town and collect our waste on time.
- It is the above few things that encourage our people to come forward and assist their Municipality when they can see that their Municipality is working for them.

**2022/23 Debt Collection**

- For this financial year, despite the challenges we anticipate to reach our target and collect nothing less than **R40 ml**
- We are determined and resolute that such shall happen judging from the recent collection trends and our projections.

**Planned Interventions to Increase Collections (Property rates and Service Charges)**

- On a weekly basis, a list of top 20 debtors (businesses, government and domestic) is extracted from the debtors list.
- Debtors selected are encouraged to come and make arrangements for payment;
- In the event that they still default on payments, these debtors are written final demand letters and if no positive response is received, a process of effecting service disconnections ensues in line with our credit control policy.

**Current ratio:** The municipality's current assets are 5 (five) times that of current liabilities.  
**5.47:0.18**

The ratio measures the short-term liquidity, that is, the extent to which the current liabilities can be paid from current assets. The higher the ratio, the healthier is the situation. The ratio of 5.47 is favorable as it is above the norm of 1:1 normally set for municipalities. This indicates that there is sufficient cash to meet creditor obligations.

**Liquidity ratio:** The cash and cash equivalents are four the current liabilities.

**Creditors' system efficiency:** 95 percent of the creditors outstanding are less than 30 days.

**Creditor's payment:** it takes the municipality 0 days to pay its creditors.

**Outstanding debtors:** billing far exceeds the collection on outstanding debt at the rate of 91 percent.

**Collection days:** 983 days it takes the municipality to collect outstanding debt.

**Cost coverage:** on average the municipality has sustained its existence for the period of 9month without any grant funding.

**Debtors collection rate:** as at first quarter is 77.76 %

References

Cash and cash equivalent at the beginning of 2022/23 financial year was R254.5 million as per pre-audited AFS and cash and cash equivalent at the end of 29<sup>th</sup> February 2024 is R289.8 million. Table C7 shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

**Revenue -Receipts**

- Property rates collection rate to date is 105% or R41.5 million of the billed revenue as at February 2024. The municipality is implementing strategies as per credit control and debt collection policy which has ensured that there is improved collection.
- Service Charges: Electricity and Refuse is 103.4% or R48.5 million of billed revenue as at February 2024, over collection of 12% is from the refuse vote, where a supplementary valuation has been implemented with new refuse collection sites, and electricity collection is at expected rate.
- Other Revenue collected to date is R3.0million, which is due to collection of rentals of properties, licenses and permits and other sources of revenue. Further to that the additional revenue from VAT refunds received as at February for R17.7 million.
- Government Operating received to date as at February 2024 is R182.6 million of grants received as published in DORA
- Government Capital: received to date is R41.6 million for MIG Grant, as the 3 trench of R10million has been received by the municipality.
- Interest earned on external investments amounts to R18.7 million in comparison with the year-to-date budget of R15.7 million. Variance is due to interest generated from invested funds.

**Payments**

- Suppliers and employees for cash outflows of R226.7 million does not corresponds with table A4 as it has also considered payments for prior year creditors of R17.3 million as per the 2022/23 pre-audited AFS which were paid in this current financial year. Further to that suppliers and employees cash flow have included INEP payments of R4.3 million as we adhere to GRAP 109 as the municipality serves as an agent.
- Finance charges reflect an under performance by 98 percent or R2.2million against YTD actual of R32 thousand, this line item was adjusted to R3.3million, as the Municipality has included for post-retirement cost.
- Capital Assets of R10.1 million for the month of February 2024 whilst a YTD budget of R123.2 million gives an under-performance by R59million or 48% against YTD actual of R64.1million.
